About MindForge

MindForge helps you easily connect with your field workers and provide them with the information, skills, and experience they need to succeed. MindForge offers an extensive library of 400+ training courses that users can easily access and share—and track completions as they go.

To get started, EMC policyholders can now access exclusively-selected, world-class training courses for all levels, right in the MindForge platform. These courses have one thing in common: they target the most common and frequent accidents.
